Mobile-first Software Engineer • AI Integration • Full-Stack Product Builder

SNAPSHOT

- 23-year-old engineer at ESPRIT focusing on mobile ecosystems, human-centered AI, and rigorous teamwork.
- Built production-ready tools: Otech e-commerce platform, Système de Pointage attendance SaaS, MatlatPro AI store manager.
- Leading IEEE challenge initiatives (WIE, RAS, PES, SIGHT) and prototyping an ASL gesture recognition model.

CORE STACK

Languages	Java, JavaScript, C, C++, Python, PHP, SQL
Frontend	Next.js, React, Tailwind CSS, HTML5/CSS3
Backend	Spring Boot, NestJS, Symfony, Express APIs
Mobile	Android Studio (Java/Kotlin), SwiftUI, UIKit
AI/ML	TensorFlow, Keras, OpenCV, Computer Vision, Gesture Learning
Data/DevOps	MySQL, MongoDB, phpMyAdmin, Docker, Git/GitHub, VMware (Linux)
Soft Skills	Collaboration, leadership, creative problem-solving, time management, adaptability

EDUCATION

ESPRIT – University of Engineering, Tunisia 2019 – 2026 (expected)
Bachelor of Software Engineering, Mobile Development Track
 Key Learning Streams: Mobile ecosystems (Android/iOS), AI/ML fundamentals, full-stack web (Next.js, Symfony, Spring Boot, NestJS), IoT/Arduino, data structures and algorithms.

HIGHLIGHTED PROJECTS

MatlatPro — Store Management + AI Forecasting Java, MySQL, ML

- Built desktop suite covering inventory, workforce, and sales dashboards for a retail client.
- Embedded predictive model to flag restock/discount opportunities, improving decision speed for the owner.

Otech — E-commerce Platform Next.js, Tailwind, MySQL

- Designed and deployed a branded storefront with product catalog, cart, and account flows.
- Prioritized responsive UX and reliable data layer, enabling the client to launch new product lines quickly.

Système de Pointage — Attendance SaaS PHP, MySQL

- Delivered a low-cost clock-in/clock-out platform adopted by multiple SMEs.
- Automated PDF reports and role-based access, cutting manual HR tracking time.

ASL Gesture Recognition (IEEE SIGHT) Python, OpenCV, TensorFlow

- Prototyping a real-time vision model that recognizes ASL gestures to enhance accessibility.
- Managing dataset design, augmentation, and integration plans for web/mobile distribution.

IEEE IMPACT

- **WIE Challenge:** Lead developer for the official event site; accessible, mobile-first, and content-ready.
- **RAS Challenge:** Exploring gesture-driven robotics and automation interfaces for intuitive control.
- **PES Challenge:** Prototyping AI + IoT dashboards for smarter power and energy monitoring.
- **SIGHT Challenge:** Driving the ASL recognition initiative for humanitarian tech adoption.

CERTIFICATIONS

- Sustainable Finance Certification (AMF)
- GOMYCODE JavaScript Professional Certificate
- Programming bootcamps: C/C++, Python, JavaScript

LANGUAGES

Arabic (native) — French (fluent) — English (advanced)

SOFT SKILLS & HOBBIES

Soft Skills Communication, mentorship, cross-functional leadership, resilience, customer empathy

Hobbies Open-water swimming, bodybuilding, culinary arts (chef-level cooking), community volunteering
