Software Engineer | Full-stack
Web Development | Mobile
Development | AI Machine
Learning

Professional Summary

Results-oriented and detail-driven Software Engineer with a strong background in **full-stack web development**, **mobile app development**, and **artificial intelligence**. Experienced in working with teams to build scalable solutions, automate processes, and create **innovative user-focused products**. Passionate about **continuous learning** and problem-solving in fast-paced environments.

Skills

- **Languages:** Java, JavaScript, Python, C, C++
- **Web Development:** React, Node.js, Next.js, Express.js, HTML5, CSS3, Tailwind CSS
- **Mobile Development:** Android (Java/Kotlin), SwiftUI, UIKit
- **Database Management:** MySQL, MongoDB, PostgreSQL
- **AI/ML:** TensorFlow, Keras, OpenCV, Scikit-learn
- **Tools:** Git, Docker, Jira, VS Code, IntelliJ IDEA, VMware
- **Soft Skills:** Team Collaboration, Communication, Problem-Solving, Time Management, Adaptability

Education

ESPRIT – University of Engineering, Tunisia
Bachelor's in Software Engineering (Expected 2026)

Relevant Coursework: **Mobile App Development**, **AI Machine Learning**, **Full-Stack Web Development**, **Data Structures and Algorithms**

Projects

MatlatPro - Store Management Application

A Java-based application for store management, integrating **AI-powered recommendations** to suggest restocking and discount actions.

- Stack: Java, MySQL, AI (machine learning)
- Features: Inventory management, Employee management, Predictive analytics

Otech E-commerce Website

Built an e-commerce platform for a local brand with functionalities like user management, product catalog, and checkout system.

- Stack: Next.js, MySQL, Tailwind CSS
- Features: Product search, cart system, user profiles, responsive design

Système de Pointage (Attendance System)

A low-cost, reliable attendance tracking system used by companies, designed for scalability and usability.

- Stack: PHP, MySQL
- Features: Employee management, reporting, clock-in/out functionality

Certifications

- Certified in **Sustainable Finance (AMF)**
- **JavaScript** Certification, GOMYCODE
- **C/C++**, **Python**, **JavaScript** Programming Certifications

Languages

- **Arabic**: Native
- **French**: Fluent
- **English**: Advanced

Interests

- AI and Machine Learning
- Robotics Automation
- E-commerce and Entrepreneurship
- Mobile App Development
